2014 Joint State/MPO Modified Certification Review

Broward Metropolitan Planning Organization (MPO)
Findings, Recommendations and Noteworthy Practices Report

June 2, 2014

The Florida Department of Transportation (FDOT) District Four has conducted a Modified (the 3rd year of 3 years permitted for a modified review) State Certification Review of the Broward MPO. The MPO implemented recommendations from the 2013 State Modified Certification Review and have satisfied findings of the 2011 Federal Certification Review.

This report assesses the written and verbal answers to questions presented to the MPO staff. FDOT staff determined the specific areas for which certain questions were asked based on information from the 2013 Modified Joint State Certification process, 2011 Federal Certification Review, observation of and coordination with MPO staff and attendance at MPO Board and committee meetings. Areas that are not commented on in this report are considered satisfactory by the Department.

The Broward MPO should be commended for their efforts and workshops via Speak Up Broward and the partnership with FDOT’s South Florida Commuter Services, as well as for taking the lead on conducting the successful MPOAC Weekend Workshop.

**Summary of Key Activities to Support Planning Process**

The MPO has successfully completed the annual coordination and reporting efforts on schedule as follows:

- Signed 2013 Certification Package
- Signed 2013 DBE Verification
- Adopted 13/14 Transportation Improvement Program
- Held informal unfunded priorities meeting in 2013 with FDOT and stakeholders
- Transmitted official unfunded priorities
- Adopted 2014/2015 to 2018/2019 FDOT Tentative Work Program
- Held Modified Certification Review meeting with FDOT on December 13, 2013
- Responded to Certification Review Questions/Issues
Progress on Implementation of
2013 State Recommendations

1. Public Involvement / Transportation Improvement Program - For the purposes of public involvement and ensuring full disclosure of public documents, the MPO should incorporate TIP amendments and related documents into its interactive TIP application within 14 days of amendment being approved.

Comment: For public involvement purposes and to ensure full disclosure of public documents, the Broward MPO incorporates TIP amendments and related documents into its Interactive TIP application within 14 days of amendment being approved. Furthermore, the majority of the amendments are incorporated into the Interactive TIP the same day of the MPO Board/Executive Director approval.

SATISFIED

2. Public Involvement / Transportation Improvement Program - The MPO has successfully partnered with the other four MPOs in FDOT’s District 4 to implement and maintain the Interactive TIP tool. The MPO should continue to further develop the tool by investigating features and additives to enhance public use (e.g. graphics, maps and detailed project descriptions as provided by FDOT and other transportation providers).

Comment: The Broward MPO continues activities to improve the tool by investigating features to enhance public use. For example, for projects where the description provided by FDOT, in the download of the interactive TIP, is not in enough detail, the tool would provide additional information, e.g., FDOT Project Manager contact information. MPO staff will continue to work with FDOT staff to determine the best approach to provide more information/details about projects.

SATISFIED AND ONGOING

2014 FDOT Recommendations

1) TIP/STIP Amendments: Staff should continue to take an active role in partnering with FDOT and FHWA in all aspects to improve the TIP/STIP amendment process.

2) 2040 LRTP:
   a) The MPO should ensure that the upcoming 2040 LRTP meets the requirements outlined in the 2012 FHWA Expectations Letter.
   b) The upcoming 2040 LRTP should provide more information and technical back up for the method used to derive project costs and associated breakdowns.

3) Interactive TIP: Continue to evaluate the usefulness of the current Interactive TIP, as it will be an agenda item at the annual “Best Practices” meeting.

4) 2015 Federal Certification: In preparation for the MPO’s upcoming quadrennial Federal Certification process, the MPO should continue their efforts to review and evaluate the public involvement process through the assessment and evaluation of current and new techniques and activities. The Federal Review Team is focused on and will continue to look for improvements to the MPO’s Public Involvement Plan (PIP) and public involvement strategies. The District recommends the MPO feature a Best Practice for Measures of Effectiveness in its PIP for the upcoming federal certification review.
5) **2040 Regional LRTP**: Continue to work with the Southeast Florida Transportation Council MPOs to develop a 2040 Regional Long Range Plan that includes regional priorities.

### 2013 Noteworthy Practices

- Broward MPO took the lead on partnering with FDOT’s South Florida Commuter Services program in implementing Transportation Demand Management practices that are jointly important to both the State and the MPO.

- Broward MPO’s participation in the Fare Interoperability Project was instrumental in steering the team towards a solution that is in the best interest of the region in implementing EASY Card technology and exploring new fare payment technologies (i.e. mobile ticketing).

- The Broward MPO staff values mentorship, communication and responsiveness as a part of their routine day-to-day business operations. They serve as an example to set the stage for strong working relationships.

- The Broward MPO is administering the South Florida Climate Change Vulnerability and Adaptation Pilot Project. The Pilot Project covers the four counties and three MPOs in the South Florida area. The purpose of the Pilot Project is to determine the impact of extreme weather on the areas regional transportation network based on the following stressors: sea level rise, storm surge, and precipitation induce flooding. The focus of the Pilot Project is to develop a consistent methodology for integrating vulnerability into the MPO transportation decision making process.

- The MPO’s University Drive Congestion Mitigation/Livability Planning and Transit Improvement study is the continuation of the planning effort which began last year with the Hollywood/Pines study, to combine the Congestion Management Process and Livability Planning as a comprehensive approach to implementing the Broward MPO 2035 Long Range Transportation Plan (LRTP). The Study will result in recommendations for near-term actions to address congestion and improve transit service, while taking into consideration the mid to long-term effects on creating a transit-supportive, multi-modal corridor. The study includes also a “complete streets” demo project to measure and proof the benefits of this vision. Additionally, the project will allow for analysis of the inter-relation of multi-modal transportation and land uses, and recommend the designation of appropriate land uses and guidelines for suitable redevelopment.

- The MPO has implemented an Interactive TIP Tool. This specific tool helps to save time in the development of the annual TIP document. The tool also provides improved project details such as location maps and expanded financial information not previously available until now.

- Speak Up Broward is a new initiative led by the Broward MPO to start a conversation about the future of transportation. It is a grassroots effort, engaged in fact finding and focused on future funding needs. Fifteen community-based organizations submitted letters of interest for the Program for Empowering People mini-grant competition. Six organizations were selected and are finalizing their public outreach proposals.
• The Broward MPO has taken a leadership role in implementing Complete Streets in the Broward region. The vision for Complete Streets is to create a safe and efficient transportation network that promotes the health and mobility of all citizens and visitors by providing high quality pedestrian, bicycle, transit and automobile access to all destinations throughout Broward. The Broward MPO, along with its planning partners, developed the “Broward Complete Streets Guidelines”, the Policy Plan provides guidance to local governments in revising regulations to facilitate the adoption and implementation of Complete Streets.

• The MPO developed a Multi Modal Level of Service (MMLOS) tool to provide a more holistic measure of all the modes of transportation. A MMLOS analysis was conducted on two demonstration projects to illustrate and measure the benefits of a “Complete Street”.
