The Quiet Zone is anticipated to become active at midnight on May 18, 2019. Train engineers for both the passenger and freight services will stop routinely sounding the horn. The engineer has the authority to sound the horn if there is an emergency or construction.

The MPO and its member governments encourage everyone to only cross railroad tracks at designated grade crossings, obey all warning devices and not stop on the railroad tracks.

**See tracks, think train!**

Free parking available at the Fred Lippman Center on Polk Street.
