Legislative Update for the week ending 11/10/2017

Overview

This week brought a few announcements, some surprises and committee meetings. It also brought plenty of drama not related to any bills referenced in this newsletter. That seemed to occupy all news articles and pieces of legislation were not the primary focus. I don't want to go into details of the press articles, there is a great saying which sums it all up quite well: Sometimes truth is stranger than fiction. I would love to be able to give credit to whomever came up with that saying, I would have to guess they were involved in politics.

The safety bill SB 90, the texting while driving bill, passed out of its first committee with only one dissenting vote. It has not had a change in status since and the same can be said of HB 121 which is a similar bill. Remember there is plenty of session left.

Out of left field came a bill, HB 575, which affects MPOs and the number of board members as well as bans weighted voting and having all commissioners from a county on an MPO board. The bill was filed late last week (11/08/2017) and I have reached out to Representative Beshears' staff in order to learn what circumstance brought about this bill, however we have been unable to connect. As I learn more I will send out updates prior to the next newsletter.

As in the last update, shown below are the dates of events for the 2018 legislative session, and included in this legislative update is a listing of bills filed thus far in the session related to transportation. Updates will occur on an as-needed basis until the official start of the 2018 legislative session, then your MPOAC updates will be issued weekly.

A few bills have been filed, many more will be filed over the coming months. Your MPOAC Legislative Update will keep you apprised of newly filed bills.

Grab a cup of coffee and enjoy this edition of the MPOAC Legislative Update.
