Regional Safety Gap Analysis	0%	Not applicable	Follows the Regional Safety Plans Consolidation

Highlights

Mobility Program / Complete Streets Initiative

Through the Broward MPO’s Mobility Program, over \$100 million in bicycle and pedestrian improvements (including sidewalks, multi-use paths, and bicycle lanes) have been programmed over the next four years (2015-2019). The first phase of projects, located throughout the Broward region, reflect a continuing partnership between the Broward MPO, the Florida Department of Transportation (FDOT), Broward County Government and municipalities. On February 3, 2015, a ground breaking event took place within the City of Hollywood with more than 60 community leaders, residents, and members of the media in attendance. The Mobility Program will continue to fund future multimodal projects that complete the regional network vision.

Note: For additional information on the Mobility Program, visit <http://www.browardmpo.org/projects-studies/complete-streets/broward-complete-streets-initiative-2>.

Complete Streets Technical Advisory Committee (TAC)

The Broward MPO formed the Complete Streets Technical Advisory Committee (TAC) to ensure all modes of travel were included within the planning process. This multidisciplinary group (comprised of municipal and partner agency staff, representatives of non-profit groups, and advocacy groups) has produced the following products: *Complete Streets Guidelines*, *Model Complete Streets Policy*, and *Model Complete Streets Planning Framework*. The TAC serves as a forum for exchanging ideas and, more importantly, guiding the Broward MPO Complete Streets Initiative.

Note: For additional information on the TAC, visit <http://www.browardmpo.org/projects-studies/complete-streets/broward-complete-streets-initiative-2/technical-advisory-committee>.
