# Broward MPO Complete Streets

## Advisory Committee (CSAC) Meeting Summary

On Monday, November 4, 2019, the Broward MPO hosted a Complete Streets Advisory Committee (CSAC) Meeting.

### Meeting Participants

First name	Last name	Email	Agency
Ricardo	Gutierrez	gutierrezr@browardmpo.org	Broward MPO
Stephanie	Garcia	garcias@browardmpo.org	Broward MPO
Hannah	Bourgeois	bourgeois@browardmpo.org	Broward MPO
Peter	Gies	giesp@browardmpo.org	Broward MPO
Larry	Wallace	larry.wallace@dot.state.fl.us	FDOT District 4
Brad	Swing	BSwing@sunrise.fl.gov	City of Sunrise
Lavelle	Jenrette	LJenrette@cityofwestpark.org	City of West Park
Anthony	Mincy	amincy@cityofwestpark.org	City of West Park
Diana	Carrillo	diana.carrillo@oaklandparkfl.gov	City of Oakland Park
Brynt	Johnson	brynt.johnson@oaklandparkfl.gov	City of Oakland Park
Leny	Huaman	lhuaman@broward.org	Broward County Planning Council
Michael	Righetti	mrighetti@coconutcreek.com	City of Coconut Creek
Miranda	Carson	mcarson@broward.org	Broward County Transit
Richard	Rosenzweig	fishmayven@yahoo.com	Citizen
Ken	Reinhardt	kgr5130@bellsouth.net	AARP
Tina	Jou	TJou@deerfield-beach.com	City of Deerfield Beach
Laura	Feltgen	lfeltgen@ctseinc.com	SFCS
Priscilla	Cygielnik	PCygielnik@deerfield-beach.com	City of Deerfield Beach
Jeremy	Mullings	jmullings@ctseinc.com	SFCS
Andrew	Disbury	adisbury@nlauderdale.org	City of North Lauderdale
Karen	Warfel	KWarfel@fortlauderdale.gov	City of Fort Lauderdale
Liam	Devine	LDevine@hallandalebeachfl.gov	City of Hallandale Beach

# Broward MPO Current Efforts

## FHWA Bikeway Selection Guide Workshop

On Wednesday, October 16<sup>th</sup>, 2019 FHWA Technical Experts presented the Bikeway Selection Guide to a diverse group of professionals, 50 participants from Broward County, Miami Dade, Palm Beach, FDOT district 4 & 6, and 12 Municipalities.

In February 2019, the Federal Highway Administration (FHWA) released the Bikeway Selection Guide as an aid to help transportation practitioners incorporate bicycle infrastructure in the planning process for the development of a safe and connected multimodal road network.

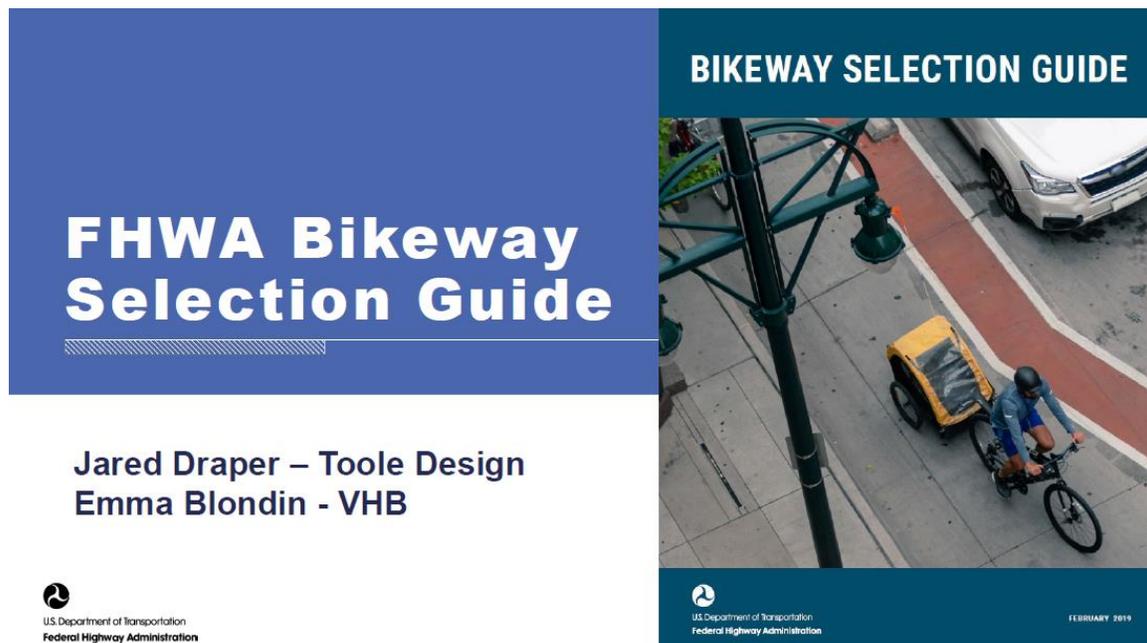

Figure 1 Image of the FHWA power point presentation

The Federal Highway Administration's Bikeway Selection Guide is a resource to help transportation practitioners consider and make informed trade-off decisions relating to the selection of bikeway types.

To download the presentation please click the link below:

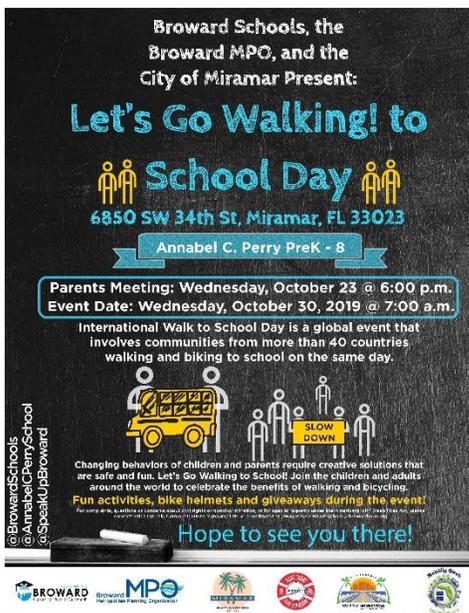

[http://www.browardmpo.org/images/CSMP/Bikeway\\_Selection\\_Training\\_V3.0\\_Broward\\_MPO.pdf](http://www.browardmpo.org/images/CSMP/Bikeway_Selection_Training_V3.0_Broward_MPO.pdf)

Figure 2 Workshop held on October 16, 2019.

The workshop aimed to provide an overview of bicycle & pedestrian safety concerns/issues, present and discuss the potential applications of the Bikeway Selection Guide. The Cities of Fort Lauderdale and Deerfield Beach staff presented case studies and received feedback from attendees.

### Let's Go Walking to School 2019

The Broward Metropolitan Planning Organization (MPO) joined forces with Broward County Schools, the City of Miramar, and partners on Wednesday, October 30, 2019, at Annabel C. Perry Pre-K-8 School to make history! The Let's Go Walking! to School Day event is the integration of the annual Let's Go Walking! held by the Broward MPO, which highlights complete streets, community assets, and promotes safe and active transportation, and the national Walk to School Day event.

On October 28, 2019. In preparation for the [Let's Go Walking](#) to School event, students from Annabel C. Perry, City of Miramar staff, Miramar Commissioner Yvette Colbourne, Broward School Board member, Patty Good and volunteers gathered at 6 locations near the school to make a series of improvements. This included: temporary painted crosswalks, curb extensions, mural

intersection, warning markings as well as placing awareness signs encouraging drivers to slow down and watch for pedestrians and cyclists to improve street safety and engage the community through innovative street design.

On October 30, 2019 as part of the National Walk to School Day. Over 200 students and parents formed a walking school bus to the school entrance. We would like to thank everyone who worked on the event and to all attendees. Parents and students who participated were excited. This approach that can be replicated at other locations in the Broward region.

Figure 4 Collage of images of the activities held on October 30, 2019.

The MPO had the support of City of Miramar Commissioner Yvette Colbourne, Broward School Board member Patti Good, Broward County Public Schools Superintendent Robert W. Runcie, Thomas Correll, principal of Annabel C Perry School, City staff (Sal Zuniga, Glen Gayle, Greg Rust), Broward Schools staff (Angel Gomez), City of Miramar Police Department (Wilson Troy, Jose Rosales), South Florida Commuter Services and the Florida Department of Transportation.

## 7th Annual Safe Streets Summit - February 6 and 7, 2010

This year, the Summit is returning to where it all started, Broward County! Bringing a focus on building and implementing a collective regional vision for better streets, better communities, and a better life for all residents.

The Summit is a collaborative effort between the Miami-Dade Transportation Planning Organization, the Broward Metropolitan Planning Organization as well as the Palm Beach Transportation Planning Agency to provide a local yet regionally connected approach to prioritizing and implementing Complete Streets throughout southeast Florida. It brings together national speakers, public officials, technical staff, and community partners to elevate our efforts on how to design and implement safe and equitable transportation facilities for all modes of transportation.

The theme for the 2020 Safe Streets Summit is "Vision 20/20" bringing a focus on building and implementing a collective regional vision for better streets, better communities, and a better life for all residents. The 2020 Summit is being hosted in partnership with the City of Fort Lauderdale. Join us on February 6 for the Welcome Reception at the Hub Spark and Pre-Conference Mobile Workshop at Hunzinger Park and on February 7 for a full Conference Day at the Marriott Harbor Beach Hotel with terrific speakers and networking opportunities.

## Meeting Presentations

### **Commitment 2045 Metropolitan Transportation Plan (MTP)**

Presented by Peter Gies, AICP

Commitment 2045 is the Broward MPO's Metropolitan Transportation Plan (MTP, formerly Long Range Transportation Plan or LRTP) and looks at how Broward's transportation

system will grow and change to meet the needs of those who live, work and play in Broward. The Commitment 2045 Metropolitan Transportation document includes the final cost feasible list of project developed through the Needs Assessment process and addresses all federal requirement for the MTP.

The Commitment 2045 MTP responds to the significant challenges associated with population growth projected through 2045 in Broward and in the region. Broward County's population is projected to increase from 1.9 million in 2018 to 2.2 million in 2045, an increase of nearly 16%. Over this same time period, the population in the greater metropolitan region is projected to increase from 5.85+ million to 7.5 million.

The Broward MPO worked diligently with member governments to identify candidate projects for the Commitment 2045 Metropolitan Transportation Plan (MTP). Through individual "Call for Projects" meetings with representatives from member governments, the Broward MPO identified over 800 candidate projects that have been prioritized through the MTP Needs Assessment.

## Transportation Planning - Overview

The **Broward MPO's Metropolitan Transportation Plan** is a federally required 25-year long-range planning document and is updated every 5 years to help guide federal/state transportation investments.

Figure 5 Image of the MTP power point presentation

Overall, the public involvement efforts for Commitment 2045 engaged more than 295,000 participants. The approach taken for Commitment 2045 incorporated expanded collaboration with partners, included scenario planning, and was mode-neutral.

Commitment 2045 developed five scenarios to evaluate different levels of transit investment and focus on key issues being faced in the Broward region today and expected in the future. The comparative evaluation of these five scenarios was then used to develop a hybrid scenario that informed the Needs Plan.

In developing the Commitment 2045 MTP, the MPO established a new approach to identifying, prioritizing, and funding transportation improvements. This new approach was conceived to ensure that the financial resources of the MPO are allocated to six funding programs in a manner that corresponds to the policy direction of the MPO Board while remaining consistent with the eligible uses of each funding source.

## ALLOCATE REVENUES TO FUNDING PROGRAMS MPO ATTRIBUTABLE FUNDS

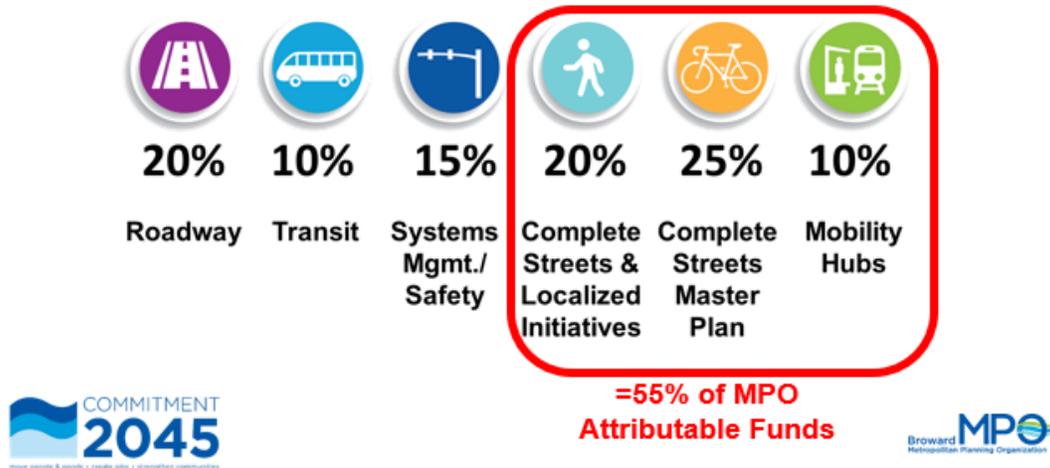

Figure 6 Revenues Allocations MTP

Between 2020 and 2045, \$12.8 billion is available to fund Commitment 2045 transportation improvements throughout the Broward region. The initial five years of Commitment 2045 (2020–2024) reflect the MPO’s adopted and committed Transportation Improvement Program (TIP). The remaining 21 years of the plan (2025–2045) reflect the transportation improvements that can be funded with revenues that are reasonably expected to be available over this time period.

# South Florida Commuter Services Transportation Demand Management

Presented by Jeremy Mullings, AICP

Large and small corporations, local governments and schools work with SFCS to manage congestion and parking demand. A core function of SFCS is helping these entities in establishing transportation demand management (TDM) programs.

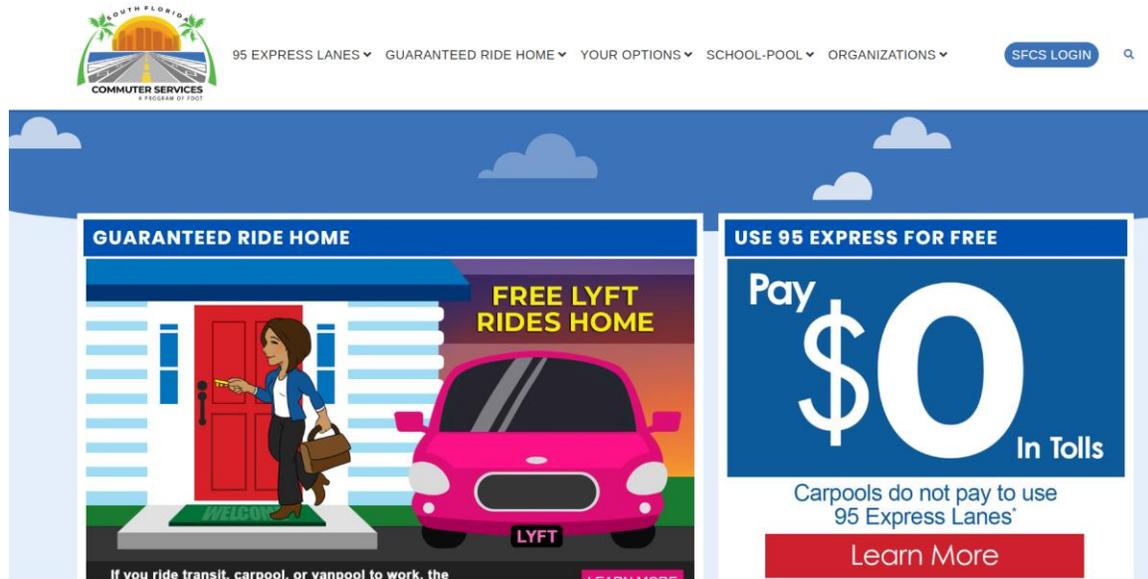

Figure 7 South Florida Commuter Services website image

These TDM programs help to reduce traffic congestion, improve air quality, and foster a far healthier commute than driving alone.

South Florida Commuter Services programs are FREE to help organizations design and launch new TDM programs as and make the most of or refresh existing transportation management and parking programs. Often times, organizations use SFCS' resources to complement their existing benefit packages and/or sustainability programs.

Services include, but are not limited to:

- Guaranteed Rides Home (via Lyft or taxicab)
- Preferential Carpool Parking & Permits
- Ride-Matching Services
- Employer Management and Reporting Portal
- Discounted Mass Transit Passes
- Commuter Tax Benefits

- Vanpool Coordination
- Parking Cash Out Programs
- Bike to Work Events
- Incentives and Customized Challenges

Figure 8 TDM program

What is the Guaranteed Ride Home (GRH) Program ?

The Guaranteed Ride Home (GRH) program provides commuters who carpool, vanpool, ride transit, bike, or walk, three or more days a week with six (6) free Lyft or taxicab rides per year to use in the event of unexpected emergencies or unscheduled overtime. To request an emergency ride home, simply call 1-800-234-RIDE.

For more information about South Florida Commuter Services visit the website: <https://1800234ride.com/>

## Context Classification – FDOT

Presented by Larry Wallace.

The context classification system broadly identifies the various built environments existing in Florida. State roadways will extend through a variety of context classifications. FDOT's context classification system describes the general characteristics of the land use,

development patterns, and roadway connectivity along a roadway, providing cues as to the types of uses and user groups that will likely utilize the roadway.

The context classification of a roadway will inform FDOT's planning, PD&E, design, construction, and maintenance approaches to ensure that state roadways are supportive of safe and comfortable travel for their anticipated users. Identifying the context classification is a step in planning and design, as different context classifications will have different design criteria and standards.

The context classification informs planners and engineers of the types of users and the intensity of use expected along the roadway.
